ANNEXURE.

Letter No. 539, dated 20th July 1920, from the Superintendent, Government Printing, to the Chief Secretary to Government.

In continuation of my letter No. 192, dated the 7th July 1920, I have the honour to state that I received a petition* from the strikers on Monday the 19th instant which I submit in original for the information of Government. I beg to submit for orders the following proposals in regard to the several points raised by them :—

2. With regard to their first prayer, I would suggest that all the compositors be divided into four classes, taking into consideration the service of the men and their capacity for work. Those under five years of service may be treated as temporary piece workers in keeping with the standing orders on the subject and paid on the piece work system now in vogue. Men with a service of between 5 and 10 years may be put in the third class; those between 10 and 15 years in the second class ; and those above 15 years of service in the first class. The first class men may be paid at the rate of annas 3 pies 6 per hour, the second class men at annas 2 pies 9 per hour and the third class men at annas 2 per hour. Taking the average month as 25 working days and the day as 6 hours (11 A.M. to 5-30 P.M. with an interval of half an hour between 2 and 2-30 P.M.) the three classes of men would get about Rs. 33, Rs. 26 and Rs. 19 respectively. For the extra hour they work between

*Not printed.

5-30 and 6-30 P.M., they may be paid overtime at the hourly rate for each class, as recently sanctioned by Government for fixed establishment. This would make an addition to their wages of about Rs. 5-8-0, Rs. 4-4-0 and Rs. 3-2-0 respectively. Altogether the three classes would thus get about Rs. 38-8-0, Rs. 30-4-0 and Rs. 21-2-0. Adding to this the allowance of Rs. 10 recently sanctioned by Government, the total wages for the three classes would come to about Rs. 48, Rs. 40, and Rs. 31.

3. In regard to the second point of the petition, I recommend for the favourable consideration of the Government that five days' casual leave on full pay per year may be granted to all piece workers—compositors, machinemen, binders and others both here and in the Branch Press at Mysore.

4. With respect to the third point at issue, I suggest that the 'pie' money now being deducted out of the men's earnings at 6 pies per rupee may not be deducted hereafter. Such of the 'pie' boys as have been paid out of the 'pie' money now, will be drafted on to the Composing Department as fourth class compositors, if found fit.

In fixing the standard of work for the three classes of compositors, allowance will be made for the time taken to distribute type, so that each compositor distributes his own type.

5. The fourth point of the petition needs no further consideration as it has been dealt with fully in para 2 above.

6. I recommend that in modification of the dismissal order, the strikers may be treated as being under suspension for 16 days from the 6th to the 21st. They may, however, be given a subsistence allowance at the rate of 25 per cent of their pay for the period they have stopped away, on the basis of their last month's salary.

7. In order to avoid further dislocation of work, I wish to take this opportunity to recommend to Government that the machine and binding departments here and the present piece work establishment at the Branch Press at Mysore may be placed on hour account.

I propose to divide the machine-minders into three classes, the first class being paid annas 2 and pies 6, the second class anna 1 and pies 9, and the third class anna 1 and pies 3 per hour. The 'ballers' will similarly be divided into three classes and be rated at anna 1 and pies 3, anna 1 and pies 9, per hour respectively.

The binders will be divided into four classes, their hourly rate of wages being fixed at annas 2 and pies 6, annas 2, anna 1 pies 6, and anna 1 per hour.

8. A statement showing the financial position now and as it will be if these proposals are sanctioned is submitted herewith. The cost will be met from the piece work allotment.

9. I request that immediate orders may kindly be passed on the above proposals.

Letter No. Ml. 19-20, dated the 9th April 1920, from the Deputy Commissioner, Chitaldrug, regarding the supply of printed forms by the Superintendent, Government Stationery, direct to the Presidents of the several Municipalities in his district as laid down in rule 377 of the Municipal Account Manual.

Order No. G. 2485-96—P. & S. 10-19-166, dated 31st July 1920.

Since the forms in use in Municipalities are supplied free by Government partly as a matter of concession, and partly as a means of securing uniformity in accounts, the Superintendent, Government Stationery, is requested to supply those printed forms direct to the several Municipal Councils in the State on receiving separate indents from their respective Presidents.

But as regards the supply of stationery, the practice hitherto has been for the Municipal Councils in the State to get their supplies from the Government Stationery Depot and to pay for them. Government do not see any justification for continuing the above practice any longer and are accordingly pleased to direct that in future the Municipalities may purchase their own stationery in the open market, according to a standard to be fixed by the Government. Orders regarding which will separately issue.

Lady Medical Officers.

No. G. 1964-74—Med. 52-19-3, dated 27th July 1920.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS

Government Order No. G. 679-80—Med. 69-16-4, dated the 13th July 1918, sanctioning the re-organisation of the Medical Department.

2. Government Order No. G. 11538-9—Med. 29-18-2, dated 14th December 1918 sanctioning the allocation of the officers of the Medical Department in the new grades.

3. Government Order No. (Camp) 215-6, dated 4th October 1919, directing that the vacancy caused by the death of Miss Ayachammal be kept open.

4. Correspondence ending with letter No. C. 147-2, dated 4—7th October 1919, from the Senior Surgeon submitting proposals for forming a separate cadre for Lady Medical Officers in the State, together with a statement of Lady Doctors and Lady Medical Officers that would be required during the next five years.

Order No. G. 1964-74—Med. 52-19-3, dated 27th July 1920.

In their Order of the 13th July 1918, Government sanctioned a revision of the several grades of officers of the State Medical Department. In it, Sex Allowances, of Rs. 50 for each Lady Surgeon, of Rs. 30 for each Lady Assistant Surgeon or Apothecary and of Rs. 15 for each Lady Sub-Assistant Surgeon, were sanctioned in addition to the grade pay. But the charges reserved for Lady Medical Officers were not listed and the proportion of officers of the two sexes in the cadres at any time was left to be decided by circumstances from time to time.

2. Recent experience has shown that, while it is necessary to recruit an increasing number of Lady Graduates in medicine, it is difficult to secure their services except on rates of salary higher than those that can be offered to male Graduates of similar qualifications. In consequence Lady Graduates have to be appointed on intermediate rates of pay in the several grades and this has operated as a hardship on male Medical Officers already in the service. On the other hand, the inclusion of Medical Officers of both sexes in one and the same cadre has rendered it difficult to post an available junior Lady Medical Officer to a Senior charge which is necessarily one for a Lady Doctor without creating some ground of grievance for male Medical Officers who are seniors. With a view to avoid these inconveniences and remedy the hardships resulting to both branches of services from a combined cadre, Government resolve to form a separate cadre for Lady Doctors.

3. While thus separating the cadres, it is found that at preseat there will be only two Lady Surgeons and that the regulation of promotion according to vacancies from class to class adopted in the Government Order of July 1918 will cause undue hardship. A time scale is therefore better suited to the needs of the case. Government consider also that the pay and prospects of Lady Sub-Assistant Surgeons should be improved. The minimum pay of this class of officers will accordingly be raised to Rs. 50 and their increments made triennial instead of quinquennial. Two prize appointments on Rs. 100 will also be provided for them. In view of the increased pay and prospects, the Sex Allowance in their case will be fixed at Rs. 10 per mensem.

4. The cadre of Lady Medical Officers will accordingly be as follows:—

Surgeons.—Two on Rs. 400-50-3-600 plus Rs. 50—Sex allowance.

Assistant Surgeons, 1st Grade.—Three on Rs. 200-20-360 plus Rs. 30—Sex allowance.

Assistant Surgeons, 2nd Grede.—Two on Rs. 120-10-200 plus Rs. 30—Sex allowance.

No. G. 1964-74—Med. 52-19-3, dated 27th July 1920.

Apothecaries.—Ten on Rs. 75-5-200 plus Rs. 30—Sex allowance.

Sub-Assistant Surgeons.—Five on grades as follows:—

	Rs.	
1 to 3 years service	50	With a Sex allowance of Rs. 10 each.
4 to 6 do	55	
7 to 9 do	60	
10 to 12 do	65	
13 to 15 do	70	
16 to 18 do	75	
19 to 21 do	80	
22 to 24 do	90	
Two prize appointments on	100	

Miss Govindarajulu is permitted to retain her present scale of pay as personal to her.

5. This cadre takes into account only officers already in service and will be added to or varied from time to time according as existing institutions are developed or new ones are opened, and according as the Lady Apothecaries now in service retire and are replaced by Lady Assistant or Sub-Assistant Surgeons.

The numbers of Assistant Surgeons 1st and 2nd grade will be subject to variation in the light of orders regarding the promotion of certain officers which is separately under consideration.

6. The strength in the grades of Assistant Surgeons and Sub-Assistant Surgeons sanctioned in Government Order No. G. 670-80—Med. 69-16-4, dated 13th July 1918, will be reduced by the number of Lady Officers in each grade and class now separated and included in the cadre of Lady Medical Officers, while the strength in the grade of Surgeons sanctioned in the said order will be reduced by a place on Rs. 500 and another on Rs. 450.

7. The Senior Surgeon is requested to submit proposals for re-allocating the existing officers in the several new grades now sanctioned.

Report on the working of the Vaccination Department in the State and of the Vaccine Institute, Bangalore, for the calendar year 1919, received from the Sanitary Commissioner in Mysore, with his letter No. P. 47, dated 16th June 1920.

Order No. G. 901-12—San. 99-19-3, dated 13th July 1920.

Result of vaccination during the year.—The number of persons vaccinated during the year was 168,493 as against 101,613 in 1918 showing an increase of 66,880. Under "District Vaccinations" there was an aggregate increase of 51,521 in the number of persons vaccinated.

Government are glad to note that the average number of cases vaccinated by each vaccinator was 931·8 as compared with 596·5 in the year previous.

2. *Prevalance of small-pox.*—The total number of deaths from small-pox registered during the year 1919 was 14,222 as against 4,442 in the year previous, and the death rate was 2·5 as against ·78 in the preceding year. The Sanitary Commissioner thinks that this large mortality in spite of the large increase in the number of vaccinations during the year is due to the fact that unvaccinated adults and children still form a considerable proportion of the population in the districts. The explanation is by no means convincing and the Sanitary Commissioner is requested to further investigate the matter. The systematisation of vaccination so that work may be carried on a definitely ascertained basis of the number of unprotected children in each local area is said to be receiving close attention of the Department and it is hoped that there will be an improvement in the State of affairs in the coming year.

3. *Inspections.*—The total number of vaccinations inspected by the District Health Officers and the Deputy Inspectors of Vaccination was 86,224 as against 49,610 in the year previous. The Sanitary Commissioner inspected the work of vaccinators and medical subordinates in 31 towns and 23 villages

4. *Compulsory vaccination.*—The attention of the Presidents of Municipalities is invited to the remarks of the Sanitary Commissioner in paragraph 9 of his report regarding the working of the compulsory Vaccination Regulation and they are requested to take suitable measures for the proper working of the scheme.

5. *Cost of the Department.*—The total cost of the department exclusive of the Vaccine Institute amounted to Rs. 50,486-12-5 in the year under review as against Rs. 28,039-9-8 of the preceding year. The average cost of each successful vaccination was Re. 0-7-8 as in the previous year.

6. *Vaccine Institute.*—There was an increase in the quantity of vaccine supplied during the year, the quantity for 1919 being 280,380 as against 162,353 in the previous year. The net expenditure during the year under review was less than that of last year being Rs. 3,813-1-10 as against Rs. 7,235-12-1. The gross cost of lymph supplied during the year was 5·9 pies per case as against 10·59 pies in the year previous.

Correspondence ending with letter No. 182, dated 4—5th February 1920, from the Secretary to the Board for the Management of the Mysore Local Service and Pleaders' Examinations on the subject of holding the Local Service and Pleaders' Examinations twice a year.

Order No. G. 2297-353—Cts. 87-19-4, dated 30th July 1920.

The question of holding the Local Service and Pleaders' Examinations twice a year, with a view to afford greater facilities to candidates intending to get themselves enrolled as Second Grade Pleaders within the extended period of three years allowed in Government Order No. G. 5860-1—Cts. 262-18-3, dated 5th September 1919, having been pressed for consideration both in the Representative Assembly and the Legislative Council, the proposal was referred for opinion to the Board of Management of the said Examinations. The Board are unanimously in favour of holding a second examination both for the Pleaders and the Local Services as it will be of great use not only to candidates intending to become pleaders, but also to the Probationary Assistant Commissioners and other officers who are required to pass prescribed tests within a definite period.

2. Government are accordingly pleased to sanction the recommendation of the Board for holding the Local Service and Pleaders' Examinations twice a year, the arrangement being tried for a year in the first instance.

GOVERNMENT OF H. H. THE MAHARAJA OF MYSORE,
GENERAL AND REVENUE SECRETARIAT,
Bangalore, dated 23rd July 1920.

From

C. S. Balasundaram Iyer, Esq., B.A.,
Chief Secretary to the Government
of His Highness the Maharaja of Mysore.

To

The District Magistrates of Districts.

SIR,

Government regret to find from very many applications received of late for the extradition of accused persons from British India that the instructions contained in Government Order No. 12094-303—J. 1104, dated the 24th February 1898, are not being properly attended to. It has been noticed that applications for extradition warrants are made on insufficient grounds without properly recording adequate evidence to prove all the ingredients of the offence sought to be made out and that the available evidence is not properly scrutinised before application is made for the issue of extradition warrants. In a certain case a good deal of hearsay evidence was recorded and relied upon to prove the main facts of an occurrence. There have also been cases in which incorrect statements were made in the memoranda of evidence accompanying the extradition applications and the communications from District Magistrates forwarding the applications. In several cases, it has been observed that the enquiry was held in a very dilatory manner and that the application was sent just a few days before the period of two months during which an arrested person was detained in custory pending extradition. All these circumstances have led to unnecessary correspondence both with the District Magistrates and the Residency and in some cases the applications have been infructuous.

2. Government are therefore obliged to reiterate the direction that the preliminary enquiry in all extradition cases should be as carefully conducted as in a trial so that all necessary and important evidence available may be properly recorded by the Magistrate and with as little delay as possible.

3. The Police Officers concerned in the investigation should be asked to bestow proper care, attention and expedition in dealing with such cases. The District Magistrates should also scrutinise the evidence and examine the records very carefully and satisfy themselves, before moving Government for the issue of extradition warrants, that a fair *prima facie* case exists, particular attention being given to the instructions contained in para 5 of the Government Order of 24th February 1898.

I have the honor to be,
Sir,
Your most obedient servant,

1. Correspondence ending with letter No. C. Per. 148, dated the 23rd—27th March 1920, from the Revenue Commissioner in Mysore, submitting with his review * the Season and Crop Report for the year 1918-19.

2. Letter No. 8038—C. 872, dated the 13th May 1920, from the Director of Agriculture in Mysore, submitting his remarks on the above Report.

* Printed as an accompaniment.

Order No. 39-18—Stl. 22-19-10, dated 14th July 1920.

Part IV. Rainfall.—The average rainfall for 1918-19 was 30·90 inches against 41·46 inches of the previous year. From an agricultural point of view, the rainfall was not only deficient but ill-distributed.

Part I. Area (Table A—1).—The total area of the State at the end of the year under report was 18,861,218 acres. Deducting the area for which no returns exist, the net area showed a decline by about 8,000 acres being 17,479,163 acres against 17,487,879 for 1917-18. The slight change in the figures was due to the revision of figures according to revision survey.

Classification of area. (Table A—2).—Two hundred thousand acres of reserved land were transferred from the control of the Forest Department especially in the districts of Shimoga and Kadur reducing the area under 'Forests' to that extent. Part of this land was made available for cultivation and the rest were reserved for communal purposes. The figures under "other lands not available for clutivation" and "net area available for cultivation" increased accordingly to 6,563,880 and 8,605,850 from 6,411,535 and 8,570,408 acres respectively. The adverse seasonal conditions (*vide* last paragraph *infra*) are reflected in the decline of the net cropped area by 549,729 acres or 8 per cent of the area cropped in the previous years. The area under current fallows shows a corresponding rise from 1,342,979 (1917-18) to 1,930,397 acres. The total area irrigated from all sou rces rose by nearly 68,000 acres to 1,069,035 acres which was nearly one-eighth of the total area available for cultivation and one-fifth of the net area cropped during the year.

Specification of crops (Table A—3).—Out of every 10,000 acres under cultivation 3,187 acres were cultivated with ragi, 1,269 with horse gram, 1,072 with cholum, 1,028 with rice, and 65 acres with sugar-cane, the balance being under other crops. The area under sugar-cane was only 4 per cent of the total irrigated area. Though there was an expansion under horse gram, Bengal gram, etc., the total area under food grains receded from 5,523,373 to 5,087,401 acres or nearly 8 per cent. The area under oil seeds declined by nearly 30 per cent, being 252,402 against 355,387 acres. A similar decline is noticed in condiments and spices, sugar, fibres, dyes, etc. There was a small rise in the total area of drugs and narcotics from 133,131 to 142,198 acres, due to the expansion of coffee and tobacco cultivations. The area under mulberry was 45,766 acres against 21,780 in 1917-18, increases being especially noticeable in the districts of Tumkur and Mysore. In these districts is noticeable also considerable contraction in the acreage under arecanut. The Deputy Commissioners of these districts are requested to verify the accuracy of these figures and report the result through the Revenue Commissioner.

Agricultural stock (Table B).—The statistics of the fourth quinquennial Census of Agricultural Stock held in January 1916 are repeated under this head.

Incidence of Land Revenue Assessment (Table—C).—The incidence of land revenue (on the land assessed) per head of population was Rs. 1-15-4 as against Rs. 1-14-3 of the previous year.

No. 39-18—Stl. 22-19-10, dated 14th July 1920.

Holdings and holders (*Table—D*). - Government invite attention to the Revenue Commissioner's remarks under this head and trust that in future more care will be bestowed by the Deputy Commissioners in furnishing the figures for Table D.

Transfers of Property (*Table—E*).—There has been an increase in the number of transfers and also in the area transferred under the Orders of the Civil and Revenue Courts.

Part II. Estimated outturn of selected crops.—The unfavourable character of the seasons resulted in abonormally low outturn of the selected crops, *viz.*, paddy, ragi, cholum, horse gram and sugar-cane as will be seen from the following tables:—

Crops		Area under crops (acres)	Standard outturn (pallas)	Estimated actual outturn (Pallas)
1. Paddy	1917-18	818,347	7,222,591	4,438,632
	1918-19	634,456	5,122,962	2,212,265
2. Ragi	1917-18	2,317,396	10,596,624	6,375,186
	1918-19	1,966,411	8,888,431	3,006,270
3. Horse gram ..	1917-18	734,349	1,244,482	627,243
	1918-19	883,397	1,870,892	630,137
4. Cholum	1917-18	608,001	1,838,014	1,010,210
	1918-19	660,533	2,138,715	726,381
5. Sugar-cane ..	1917-18	44,328	5,217,282	3,634,091 Maunds
	1918-19	40,584	4,860,838	2,434,595

Part III (*b*) *Wholesale prices.*—The unfavourable seasonal conditions coming at a period of world shortage of food stuffs resulted in a phenomenal rise in the prices of rice, ragi, cholum and Bengal gram in all the districts of the State, and consequent suffering among the poorer classes. Throughout the year under review the local grain market had to be continuously replenished by imports from abroad organised by Government.

Part III (*a*) *Exports and Imports by Rail.*—The values of imports of the chief agricultural products (by rail) were Rs. 3,20,63,259 and Rs. 3,84,98,859 respectively. The principal features of the year were the large rise in the import of rice and decrease in the exports of ragi and cholum.

General summary.—The principal features of the year's agricultural activities may be summarised as follows:—

Out of a total of 86 lakhs of acres available for cultivation, 7·6 lakhs were still unoccupied and 78·4 lakhs of acres were under occupancy. Out of these 19 lakhs of acres, *i.e.*, nearly one-forth of the area under occupancy was fallow against one-sixth in the previous year and crops were raised only on the balance, *i.e.*, 59 lakhs of acres against 64·5 lakhs in the previous year.

The cropped area was distributed as follows:—

	Acres.
Food crops	50,00,000
Oil seeds	2,52,000
Cocoanut and arecanut	1,48,000
Drugs and narcotics (including coffee and tobacco)	1,42,000
Fibres	1,31,000
Condiments and spices	1,25,000
Fodder crops	60,000
Sugar	41,000
Others	2,70,000
Total ..	61,69,000 Acres (including area cropped more than once).

No. 39-18—Stl. 22-19-10, dated 14th July 1920.

The estimated outturn of the principal crops was poorer than the standard outturn and the previous years' outturn to the extent noted below:—

	Standard	1917-18	1918-19
Paddy	16 annas	9·8	6·9
Ragi	16 annas	9·6	5·4
Horse gram	16 annas	8·0	5·3
Cholum	16 annas	8·7	5·4
Sugar-cane	16 annas	11·1	8·0

Though the agricultural produce was less, prices ruled very high and the increases ranged from about 50 per cent of the previous year's prices, during harvest time to 100 per cent or even more in some cases, during the months of July and August. The agricultural classes were therefore fairly compensated and the strain fell mostly on the middle classes, the urban wage earners and the Government servants and other employees deriving fixedly monthly incomes.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

Read—

Government Order No. R. 14701-10—L. R. 36-18-15, dated the 6th May 1919, directing that, in view of the reorganisation of the Taluk Offices, the 'Records' work should be attended to by the normal staff in the Taluk Offices, the Amildars being held personally responsible for the prompt clearing of the arrears and that the temporary staff should be disbanded with effect from the date of expiry of sanction.

Order No. R. 258-66—L.R. 53-19-7, dated 7th July 1920.

Government observe that in spite of the repeated instructions issued from time to time in connection with the sorting of records in the several Revenue Offices in the State and the extra staff sanctioned for clearing the arrears, the progress made in the work so far has not been satisfactory. Lack of supervision on the part of the Revenue Officers over the work of the Records Staff, the employment of the additional hands on work other than that for which they were sanctioned and the incompetency of raw men employed to work in the Record Branch in their stead are the chief causes which have contributed towards the poor results so far achieved.

2. The requisites for a thorough working of the Records Branch are:—

(1) The systematic clearance of the recorded papers.
(2) The marking of period of preservation and class by the case-worker.
(3) The intelligent prompt observation of the rules by the Records staff in the matter of their preservation, indexing, lending out and destruction.

3. The fruitful sources of congestion seem to be the following:—

(1) Unsatisfactory work at the beginning which leads to what is called Resorting thereby necessitating the manipulation of the figures given and demonstrating the necessity of having only trained and permanently entertained officials working in the Records
(2) The computation of deposited records in terms sometimes of "Daftars" and sometimes of "Files". The daftar being a known term, instructions may be given if it is desired to have an exact accounting that a daftar may include, say, 300 files. If books or bundles, as many as can go into a daftar which can be handled about, may be put into a daftar.
(3) *Want of supervision.*—A convenient date should be fixed the arrears up to which, if any, should be definitely ascertained and proper arrangements made for their being cleared up in addition to the work of sorting the files received since. Unless the supervising officers are determined to see the work through no real progress can be expected.

4. The systematic clearance of filed papers from every branch of the office is essential in the interests of both the current and the Record Sections. Periodical clearance as per rules should be insisted on by the ministerial head of the office and cases of default by current workers should be severely dealt with. So also, the work which hitherto has gone unattended to, *e. g.*, the English Records of the District Office may be systematically taken in hand. The records of Assistant Commissioners' Offices should be also periodically cleared as per rules.

5. As it is the case-working sections that best know how a file should be marked for the records, this procedure of marking the files should invariably be followed in respect of the files to be sent to the records in future.

6. It is a usual feature of most Record Inspection Reports to say that "papers marked for destruction have not yet been destroyed." Rules having been complied with, there ought to be no hesitation in destroying useless papers. Likewise, there ought to be no hesitation on the part of the Records Staff in issuing strict reminders for records or books that have been lent out but not received back within a reasonable time.

7. Record-sorting is neither technical work in the sense that outside help is necessary to scrutinise its working nor additional work in the sense that an office which does its current work satisfactorily need not trouble itself about the records. The

current workers are best fitted to direct how their records shall be preserved and the officers directing the current work can very easily work their records staffs also without applying for extra help.

8. The Revenue Commissioner is requested to issue needful instructions to the Deputy Commissioners impressing on them the urgency and importance of speeding up the work of record-sorting in the light of the above observations.

Government Order No. R. 2440-87—L. R. 408-14-40, dated the 29th August 1916, issuing rules for the restoration and construction of Minor Tanks in the State.

2. Subject No. 16 of the Proceedings of the session of the Representative Assembly of October 1918, suggesting that a ruling be made to the effect that the raiyats' contribution towards the cost of restoration of Minor Tanks may be paid along with kandayam in five annual instalments.

Order No. R. 593-604—L. R. 15-19-25, dated 15th July 1920.

Under Rule 10 of the rules appended to the Government Order dated the 29th August 1916 read above, the Deputy Commissioners of Districts have power to treat in very exceptional cases the amount of contribution due by raiyats towards the cost of restoration of Minor Tanks as a loan on the security of their lands, subject to recovery within a period not exceeding five years, with interest at the rate sanctioned for takavi loans. In view of the possible hardship and inconvenience that might be caused in individual cases, owing to the absence of clear provision in the rules as to the mode of recovery of the contribution due from the raiyats and the number of instalments to be allowed in each case, Government direct that the contributions due from raiyats be recovered in five equal annual instalments along with the assessment payable on the lands in their holding. This rule will be in force tentatively for a period of three years commencing from 1920-21 and the Revenue Commissioner is requested to submit a report to Government at the end of the period on the working of the rules with definite proposals for its continuance or otherwise.

3. Letter from Rajakaryaprasaktha B. Ramakrishna Rao without date, received on 2nd January 1920, forwarding two copies of the Shanbhogs' Conference of 1918 held at Bangalore on the 31st August and 1st September 1918 under the presidency of Mr. B. Narasinga Rao, Pleader and *Ex.*-Member of the Mysore Legislative Council.

*Enclosed.

Order No. R. 1447-506—L. R. 234-19-7, dated 28th July 1920.

Recorded.

2. The receipt of the resolutions of the Shanbhogs' Conference of 1918 not having been traced, the following orders are now passed with reference to the copy of the said resolutions since received from Mr. B. Ramakrishna Rao.

(*a*) *Resolution 2.*—The question of increasing the remuneration paid to shanbhogs is engaging the attention of Government. As announced at the meeting of the Representative Assembly of May 1920, it is intended, at present, to allow the potgi to be calculated on *each* village separately, and also to increase stationery allowance. Orders in this respect will issue very early.

(*b*) *Resolution 3.*—Government observe that the hereditary claims of shanbhogs of towns and villages converted into municipalities or constituted as Village Panchayets cannot ordinarily be recognised, as the Municipal Regulation and the Village Panchayet Regulation do not admit of the creation of the hereditary rights to any office.

(*c*) *Resolutions 4 & 8.*—Government are not prepared to accept the proposals (1) that registered shanbhogs may be allowed to take up other avocations and employ gumastas to look after the shanbhogi duties and (2) that the registration of several firkas in the name of only one of the hakdars in a family and the appointment of gumastas by the registered hakdar to look after the duties of such of the villages as cannot be managed by himself should be allowed, as the same are opposed to Rule 83 of the rules framed under the Village Offices Regulation and are calculated to materially affect the efficiency of the shanbhogi service.

(*d*) *Resolution 5.*—Government see no reason to give special facilities to the shanbhogs to appear for the Local Service Examinations.

(*e*) *Resolution 6.*—Government consider that no further curtailment of powers beyond that ordered in Government Proceedings No. R. 2610-27—L. R. 193-19-1, dated 23rd August 1919, withdrawing the power given to Amildars to suspend village officers without reference to higher authority is necessary or desirable.

(*f*) *Resolution 7.*—Government are not prepared to accept the suggestion that registered shanbhogs be allowed to nominate their successors during their life-time and that such nominations should be given effect to, as it is likely to affect the efficiency of the shanbhogi service.

(*g*) *Resolution 9.*—The prayer for provision of scholarships to the sons of shanbhogs, as in the case of backward classes, cannot be granted.

(*h*) *Resolution 10.*—The suggestion that all officers other than Amildars should communicate with shanbhogs only through the Amildars does not commend itself to Government, as the proposed procedure will entail delay in securing information required by the officers concerned.

No. R. 1447-506--L. R. 234-19-7, DATED 28TH JULY 1920.

(*i*) *Resolution 11.*—The existing rules make sufficient provision in regard to the payment of kandayam to village officers, and a rule of the kind referred to in this resolution is hardly necessary.

(*j*) *Resolution 12.*—In regard to individual cases of hardship adverted to in this resolution, the Secretary of the Shanbhogs' Conference is requested to make a separate representation to the Revenue Commissioner who will take needful action in the matter.

(*k*) *Resolution 14.*—The proposal that the sons of shanbhogs who pass the B.A. examination should be appointed as Probationers is not practicable. No such preferential treatment can be given.

Government consider that it is not desirable to allow the shanbhogs to reside in any place outside their firkas.

3. With reference to the resolutions of the Conference of 1919, Government are pleased to order as follows:—

(*a*) *Resolution 3.*—Government observe that it is not practicable to consult the Conference in all cases and that any representations from the Conference on behalf of the shanbhogs in regard to matters concerning them will receive due consideration.

(*b*) *Resolution 4.*—The President of the Conference has been already informed in letter No. G. 15031—R. A. 23-19-2, dated 5th January 1920, that, as shanbhogs are sufficiently represented in the Representative Assembly, there is no need to give them separate representation.

(*c*) As regards Resolution 5. Government concur with the Revenue Commissioner in Mysore in his opinion that as the accounts in connection with contributions and loans are all maintained in Taluk Offices and as no extra work devolves on the shanbhogs in respect of them, commission on their collection should not be paid to these officials.

(*d*) *Resolution 6.*—The Secretary of the Conference is informed that in reconstituting taluks, all the villages comprised in a firka are ordinarily included in one taluk and that this practice will be followed in the future.

(*e*) *Resolution 7.*—It may be pointed out that Government have in their Proceedings No. Fl. 3368-9—G. F. 160-19-2, dated the 17th December 1919, already passed orders granting the request in the matter of allowing the sums contributed towards the funds of the Conference being received in the State Treasuries and arranging for remittance of the amounts to Bangalore by means of Transfer receipts.

(1) Conveys thanks to Government for the orders issued on the resolutions of the previous year's Conference.

(2) That orders on the question of increase of the potgi paid to shanbhogs may be expedited.

(3) That in some taluks the hereditary rights of the shanbhogs of villages since converted into Village Panchayets or Municipalities have been affected by the appointment of persons unconnected with the original family of hakdars, on fixed monthly pay of Rs. 10 or 12 and that the original hakdars should be appointed shanbhogs in such places, their own sons or other near heirs being appointed in places where the work is too heavy for a single man to cope with.

(4) That the old system under which a registerdar shanbhog taking up other avocations might employ gumastas to look after the duties of the shanbhogi officer be revived.

(5) That shanbhogs who have passed the Lower Secondary Examination should be allowed to appear for the Mysore Local Service Examinations.

(6) That the power to dismiss the shanbhogs be reserved to Government and that the power given to Amildars to fine or suspend the shanbhogs be taken away from them.

(7) That registerdar shanbhogs should be allowed to nominate their successors and such nominations should be given effect to during their life-time as urged in the first year's Conference.

(8) That the splitting up and distribution of the several villages of shanbhogi circles or firkhas among different members of a family is highly prejudical to the interests of the members of the family and that in cases where the firkhas have to be distributed, the son may be registered as the shanbhog of all the firkhas with powers to reserve to himself as many villages as he can conveniently manage and appoint gumastas on his behalf to look after the remaining villages.

(9) That as in the case of Backward Communities, scholarships should be granted by Government to the sons of shanbhogs studying in educational institutions other than their village schools.

(10) That in matters in which shanbhogs have to be consulted, officers other than the Amildars should communicate with shanbhogs through the Amildars to whom alone the shanbhogs are subordinate and that Amildars or any one on their behalf might issue Hukums to shanbhogs in respect of such matters.

(11) That as shanbhogs are not allowed to receive money paid on account of kandayam, it may be distinctly laid down as a rule that receipts granted by shanbhogs will not be accepted in proof of payment of kandayam.

(12) That in some districts the shanbhogs are required to submit accounts with numerous headings, which are not prescribed by Government and that the Deputy Commissioner of Chitaldrug has issued orders to the effect that the shanbhogs should verify the Pahani of all the villages and send the same to the Taluk Officer every month and that orders be issued not to trouble the shanbhogs with such work.

(13) A committee was appointed to examine the duties of shanbhogs as laid down in the Mysore Village Manual and to suggest necessary modifications with due regard to the conveniences of the shanbhogs and patels.

(14) That the sons of shanbhogs who pass the B. A. examination should be appointed Probationers.

(15) That the rule requiring shanbhogs to reside in any of the villages comprised in their firkhas should be done away with, subject to the condition that residence outside the firkha should be without prejudice to the work of the shanbhogs.

Government Order No. R. 12988—L. R. 325-18-6, dated 9th April 1919, directing that the license granted by the Deputy Commissioner, Mysore District, to Mr. Ameenuddin Ali for removing Fuller's earth in the Taluks of Nanjangud, T.-Narsipur and Chamrajnagar be restricted to two years and stating that separate orders will issue regarding the grant of licenses in such cases in future.

2. Correspondence ending with letter No. 3552, dated 10th June 1919, from the Director of Mines and Geology furnishing his opinion in the matter of framing rules regulating the manner of disposal of Fuller's earth and the levy of royalty thereon.

3. The marginally noted communications from the Director of Industries and the Revenue Commissioner in Mysore respectively on the subject.

1. Letter No. 163—Geol., dated 30th March 1920.
2. Letter No. 4146-18-19, dated 27th—29th April 1920.

4. Correspondence ending with letter No. C. 3999—Gl. 19-20, dated 30th April and 3rd May 1920, from the Revenue Commissioner in Mysore, submitting draft of an amendment to Rule 18 of the Mysore Land Revenue Rules necessitated by para 3 of Government Order No. G. 23401-13—Geol. 12-19-5, dated 12th April 1920, issuing instructions to the Deputy Commissioners of Districts in the matter of issue of permits for removing limestone and other ordinary minerals.

Printed as Annexure.

Order No. R. 1008-67—L. R 325-18-13, dated 20th July 1920.

In view of the utility of Fuller's earth for industrial purposes, the Revenue Commissioner, the Director of Mines and Geology and the Director of Industries and Commerce were requested to furnish their views in the matter of framing rules to regulate the levy of a royalty on the mineral, as no royalty is prescribed therefor in Appendix A of the rules under the Land Revenue Code. The Director of Mines and Geology states that the removal of Fuller's earth should be prohibited except under annual permits obtained from the Deputy Commissioners of Districts on payment of royalty at the rates noted in the margin, and also suggests an amendment to Rule 18 of the rules under the Land Revenue Code. The Revenue Commissioner, while agreeing with the Director of Mines and Geology suggests the levy of a royalty of 4 annas per cart-load of Fuller's earth removed.

Rate of royalty—on Fuller's earth (Crude earth soda) a royalty of 2 annas per cart-load. On Sodium carbonate prepared from the Fuller's earth a royalty equal to 5% of the sale value of the prepared material subject to a minimum charge of Rs. 3 per ton.

2. In view, however, of the limited demand for the mineral for industrial purposes in the several districts, Government consider that a small royalty for the use of the mineral is sufficient and approve of the amendment to Rule 18 of the rules under the Land Revenue Code suggested by the Director. A royalty of 4 annas per cart-load of Fuller's earth removed will be levied, dhobies and Uppars being permitted to remove it free of charge for the *bona fide* purposes of their work.

3. In regard to the removal of limestone and other ordinary minerals, necessary instructions have already been issued in Government Order dated 12th April 1920. The draft submitted by the Revenue Commissioner in Mysore in regard to the amendment to Rule 18 of the rules under the Land Revenue Code is approved.

No. R. 1008-67—L. R. 325-18-13, dated 20th July 1920.

4. The amendments to Rule 18 of the rules under the Land Revenue Code as approved by Government are indicated in the annexure to this Order.

* Memo No. C. per 52-2, dated 21st May 1920, from the Revenue Commissioner in Mysore, submitting the statement of progress made in the restoration of minor tanks in the several districts during the half-year ending 31st December 1919, with a copy of his review thereon.

* (Printed as annexure)

Order No. R. 1100-8—L. R. 15-19-26, dated 21st July 1920.

Recorded with the following observations:—

(i) The delay in the submission of the returns particularly from the districts of Shimoga and Kadur is very unsatisfactory.

(ii) The district returns have not been prepared with sufficient care.

(iii) Out of 403 works selected for restoration during the year, as many as 383 have not been taken up for execution at all. This is very unsatisfactory. The annual programme should be so framed that almost the whole of it should be worked out during the year.

(iv) The explanation, the lists and the reports called for in paragraphs 3, 5 and 7 respectively of Government Order No. R. 10521-31—L. R. 15-19-15, dated the 11th March 1920, have not been received till now, and the submission of the same should be expedited by the Revenue Commissioner.

2. The percentage of establishment charges to the expenditure incurred is very high. Government fear that it will continue to be so, until holders of lands below tanks readily come forward or are compelled, by legislation, to pay their quota of the cost of restoration whenever called upon to do so in lieu of doing earthwork themselves and thus help to increase the total annual out-turn of work.

3. Government are constrained to observe that the total progress of work under the Minor Tanks Restoration Scheme during the period under review is, on the whole, very disappointing.

ANNEXURE

SUBJECT—

Statements showing the progress made in the restoration of minor tanks for the half-year ending 31st December 1919, received from the Deputy Commissioners of Districts on the dates noted in the margin.

District	Date of receipt
Bangalore	16—3—20
Kolar	.. 31—1—20
Tumkur	... 13—1—20
Mysore	.. 21—1—20
Hassan	... 2—1—20
Shimoga	... 29—4—20
Kadur . ..	. 10—4—20
Chitaldrug.	.. 15—1—20

2. A consolidated statement showing the figures contained in the returns is appended.

3. There was considerable delay in the receipt of the returns from the districts of Kadur and Shimoga. The Deputy Commissioners of these districts are requested to see that such delays are avoided in future.

4. The Deputy Commissioners of Kadur and Chitaldrug Districts have not furnished talukwar details in the statements relating to their districts. though this omission was pointed out to them in this office review on the progress made in the restoration of minor tanks for the half-year ending 31st December 1918. These details should be furnished as they are needed to gauge the work turned out in the taluks.

5. It is observed that the figures showing the number of restored tanks are not correctly given in the returns from some of the districts. For instance, the number of such tanks in the Tumkur and Hassan Districts from the commencement of the scheme up to the end of 1918-19 should be *40 and 126 and not 26 and 110 as shown in the statements received from these districts. It will be seen from the enclosed statement that only 18 tanks were restored completely during the half-year. This is very unsatisfactory and the Deputy Commissioners are requested to see that energetic measures are taken to ensure the early completion of the works under progress.

	*No. of tanks restored up to the end of 1917-18	No. restored during 1918-19	Total
Tumkur ..	23	17	40
Hassan ..	110	16	126
Total ..	327	79	406

6. The number of incomplete works at the end of the previous half-year or 30th June 1919, given in the returns for Bangalore, Kolar, Mysore, Shimoga and Chitaldrug Districts does not tally with that given in the printed statement for 1918-19 as shown in the margin*. The variations should be explained. and correct figures furnished in future.

	*No. of incomplete works at the beginning of the half-year ending 31st December 1919. (*Vide* Col. 6 of the consolidated statement.)	No. of incomplete works as shown in the printed statement for 1918-19 at the end of June 1919.

Kolar	74	106
Mysore	60	68
Shimoga	112	95
Chitaldrug	17	11

7. Out of the 403 tanks selected for restoration during the year, only 20 were taken up for execution during the half-year as detailed in the margin nine in Bangalore, two in Kolar, eight in Tumkur and one in Mysore District, while none was taken up in the remaining districts of Hassan, Shimoga, Kadur and Chitaldrug. This is very disappointing. It is hoped that satisfactory progress will be shown in the current half-year.

	*Number of new tanks selected for restoration during the year (Col. 7)	Number of tanks shown in Col. 7 not taken up for execution during the half-year (Col. 12)	Difference (Number in Col. 7—Number in Col. 12) showing the number of tanks taken up for execution

8. The total number of incomplete works at the end of the half year was 585 as against 663 at the end of 30th June 1919. The districtwar details of the former figure

require verification as according to them 58 tanks should at least have been restored during the half-year in question excluding the number (20) taken up for execution out of those selected for restoration during the year 1919-20, whereas the number actually restored during the half-year was only 18. The total number of works at the end of the half-year, however, appears to be only 665 as shown in the margin. The Deputy Commissioners are requested to furnish correct figures under this head.

Number of incomplete works at the beginning of the half-year ...	...	663
Number of incomplete works at the end of the half-year ...	...	585

Total	...	665

9. Out of the allotment of Rs. 1,50,000 made for minor tank works during 1919-20, a sum of Rs. 39,786 or only 25·1% of the total allotment was spent on incomplete works of previous years. The expenditure incurred on such works in the Bangalore and the Chitaldrug Districts particularly has been very poor and unsatisfactory amounting to only 5·7 and 7·8 per cent of the allotments.

10. The percentage of the total cost of establishment in the several districts, except Tumkur, to expenditure (Col. 18) works out on an average to 63·53, the districts of Shimoga and Mysore showing a very high percentage of 107·0 and 103·3. This is very unsatisfactory. The Deputy Commissioners are requested to give their particular attention to the reduction of the percentage of establishment charges by greater activity in the working out of the minor tank restoration scheme.

11. A sum of Rs. 4,251 was recovered as contribution from the raiyats in respect of 34 tanks in all the districts except Kolar and Hassan, figures for which have not been given.

No. C. 1933-18, dated 17th—18th May 1920, from K.R. Srinivasiengar, Esq., M.A., Revenue Commissioner in Mysore, to the Secretary to the Government of His Highness the Maharaja of Mysore, Revenue Department.

With reference to your letter No. R. 13730—Ft. 115-18-4, dated 28th April 1919, calling for a further report in the matter of the constitution of the Shedgar Forest Block No. 1, Tirthahalli Taluk, I have the honour to forward herewith copy of letter No. Mis. C. 487—Rev. 18-19, dated 25th April 1920, together with its enclosures in original from the Deputy Commissioner, Shimoga District, recommending the acceptance of the Forest Settlement Officer's proposals.

2. I concur with the Deputy Commissioner in his opinion and under the circumstances stated in his letter, I beg to recommend that the line of demarcation as proposed by the Forest Settlement Officer may kindly be accepted.

Letter No. Mis. C. 487—18-19, dated 25th April 1920, from the Deputy Commissioner, Shimoga District, to the Revenue Commissioner in Mysore, Bangalore.

With reference to your memorandum No. C. 1933, dated 14th May 1919, forwarding the settlement papers connected with the proposed reservation of the Shedgar Forest Block in the Tirthahalli Taluk and calling for a report on certain points referred to therein, I have the honour to state that it is reported by the Amildar of Tirthahalli that if the demarcation line is altered as suggusted by the Conservator of Forests, the villagers will be put to considerable inconvenience in taking leaves for their garden lands, that the extent of 1,346 acres 27 guntas set apart in Mrugavadhe and 93 acres 4 guntas in Manikoppa villages for gomal is absolutely necessary as large portions of these blocks are hilly and unfit for grazing and that another portion is a *kan* from which Soppu is taken for the use of garden lands, that only the remaining extent is available for the village cattle, that a number of cultivated lands will be included in the State Forest and that the proposals made by the Settlement Officer meet the requirements of the villages.

2. I inspected the block proposed for reservation on the 16th and 17th instant and I fully agree in the view taken by the Settlement Officer. It will be noted that a good

deal of cultivated lands including village sites in the villages of Manikoppa and Kolagi will come under reservation necessarily creating opportunities for friction between the raiyats and the subordinate officials of the Forest Department. A portion of the block situate in the hamlet of Cowri attached to Kolagi village is a *hiduvali kan* and this is one reason why the whole of the hilly area shown in the sketch cannot be reserved. But even if the rights of the hiduvalidars are bought up, the portions proposed for reservation by the Conservator are too near the cultivated lands and the houses of the village people, and I think it is on a consideration of these facts that the Settlement Officer has suggested modifications in the original proposal.

The three villages which will be affected by the reservation are situated in a most inaccessible track with no communications and seem to be also most unhealthy being surrounded on all sides by hills which drain into the cultivated and habited portions. The population is sparse and the people are cut off from easy access to the Revenue or the Police authorities.

In these circumstances, I am of opinion that despite the tortuous nature of the line of demarcation suggested by him the proposals of the Settlement Officer deserve to be accepted.

3. The vernacular records ending with Tirthahalli Amildar's report No. 1053, dated 31st May 1919 are herewith forwarded for reference.

No. R. 261-4—Ft. 115-18-6, dated 6th July 1920.

3	Manjannagowda, Patel of Kolagi, on behalf of the villagers.	29-8-18	States that the following private kans should be let off. A kan of 254 acres 11 guntas in Survey No. 39 in the khate of Jetta and Subba, a kan of 108 acres and 20 guntas in Survey No. 41 of Halappa, a kan of 59 acres and 14 guntas in Survey No. 40 belonging to Seetharamish. This is therefore an undefined kan. Krishnadevarabhatta who is one of the hissedars agrees to take up the Government Kan on payment of an annual rent. They are now paying a little more than an anna per acre. This assessment was fixed long long ago and the value of land and produce has since risen all over. So I fix an annual fee of 3 annas per acre for the Government kan. It will be handed over to the khatedars and the annual fee levied therefor. The result is that Survey No. 41 is excluded. In Survey No. 33 an undefined private kan of 254

The kan holders are abusing their rights as admitted by them before the Forest Settlement Officer and while private kans are thus misused if Government kans are also brought under their management, these kans which form the special features of malnad will soon be denuded. But as per para 10 of Government Order No. 973-89—Ft. 88-15-22, dated 27th July 1917, subsequently issued, the Government desire to add to the State Forest of Shimoga District 546 square miles of Forests. Under these circumstances it seems best to include the private kans in the block subject to the exercise of kan rights by the kan holders. In case this is impossible the Government may be moved to modify their Order No. 10953-7—Ft. 153-10, dated 8th May 1917, so as to ensure the protection of these kans	acres and 11 guntas is combined with 254 acres and 12 guntas of Soppinabetta. An area equal to 254 acres and 11 guntas for kan and cultivation lands Survey Nos. 30, 31 and 32 are excluded. In Survey No. 40 an undefined kan of 59 acres 14 guntas is clubbed together with 177 acres and 39 guntas of Government kan. Under the Government Order No. 10953-7—Ft. 153-10, dated 8th May 1917 the Government kan is offered to the kanholder and one Umapathiah, guardian of the minor khatedar Seetharamiah, *bin* Dyavappiah is agreeable to take the Government kan. It will be given over to him for exercising kan rights, A fee of 3 annas per acre will be levied from him for (177 acres and 39 guntas). In Survey No. 29 there is a private kan 92 acres and 14 guntas but it is not clubbed with Government kan but only with Soppinabetta of 135 acres and 30 guntas. The kan being an undefined one, the khatedar enjoys the kan rights over the whole survey number which is wrong. Only a small portion of it is taken for the forest and there is nothing to prevent the khatedar from enjoying the kan rights over the still left portion of the land in question. Survey No 23 is a bagayat land in cultivation and the villagers say that they want the 3 tanks to the south of it for irrigation purposes. The line is changed so as to exclude the 3 tanks in question and also to give cultivation margin to Survey Nos. 23, 24, 25 and 28. (2) The following rights of way are admitted within the block. (*a*) Cart track 12 feet wide from Kelakuli to Shedgar. (*b*) Cart-track 12 feet wide branching from the above cart-track and going to Kavri. (*c*) Cart track 12 feet wide branching from the one that goes to Kavri to Survey No. 25. The other cart track remains in the excluded portion. 3. Fuel, dry and green will be allowed to be taken from the forest on payment of half the seigniorage rates on permits issued by the Forest Department. B. Letter No. 2830—L. F. 18-19, dated 16th January 1920, from P. F. Bowring, Esq., President, District Board, Mysore, to B. Ramaswamaiya, Esq., B.A., B.L., Secretary to the Government of His Highness the Maharaja of Mysore, Revenue Department.

In enclosing a copy of the objection statement relating to the audit of the District Fund Accounts for the year 1917-18, I have the honor to state that objection has been taken to the levy of local cess on (1) the sale proceeds of manure, (2) the toll levied at District Fund Toll-gates and (3) market collections, as these items of income are directly credited to District Funds. The Local Boards Regulation and the Rules framed thereunder do not however contain any provision authorising the District Board to levy local cess on the above items. The system has been in vogue from a long time inasmuch as the levy of toll on toll contract, etc., has been generally authorised in Government Order No. R. 592-608—R. F. 66-94, dated 29th July 1902, and subsequent Government Order No. R. 4598-614—R. F. 66-94, dated 16th June 1903. It is doubted by the audit department whether the District Board has got the power of levying local cess on items of revenue which are directly credited to District Funds. I have the honor to request that order of Government may be obtained in the matter.

No. R. 88-96—L. B. 97-19-2, DATED 3RD JULY 1920.

Statement showing the objection on the examination of the Mysore District Fund Accounts for the year 1917-18.

Description of item	Amount placed under objection	Remarks of the auditor
Local cess at one anna in the rupee is levied in this district on toll contract amount and also in a few cases of sale proceeds of manure both of which are credited to District Funds direct as District Fund Revenue. The District Fund is formed of 76% of cess on land revenue and other items which may from time to time be granted by Government besides the collections from tolls and markets which are directly credited to District Funds as District Fund revenue. The very fact that the District Fund is formed mainly of 76% of local cess on certain items of General revenue implies that no cess is leviable on other items of collections such as tolls and markets collected as District Fund revenue and credited to District Funds direct. Moreover the items on which cess is leviable are defined in the Government Order No. R. 593-608—L. F. 66-94, dated 27th July 1902, wherein no mention is made of items of District Fund collections on which cess can be levied as in the case of Land Revenue.		Whether cess can be levied legally as at present on tolls and manure is not free from doubt. It seems therefore necessary that definite orders of Government should be obtained in the matter.

Letter No. C. 3981—19-20, dated 21—23rd April 1920, from the Revenue Commissioner in Mysore, proposing that in view of the frequent transfers of officials from Local Fund to Revenue Department all recommendations for exemption from the operation of the clerkship rules in the case of the officials of the Local Fund Department be required to be submitted through him so as to secure uniformity in the application of the said rules.

Order No. R. 1393-403—L. B. 109-19-6, dated 26th July 1920.

Government are of opinion that an official should not be allowed to obtain exemption with facility in one branch of an office and thus claim the benefit of it in another branch where concessions of the sort are not so readily allowed. As the present practice is not conducive to efficiency, Government are pleased to direct that in future all cases in the Local Fund Department for exemption, under Government Order No. 662-706—E. A. Letter No. A. C. 1862, dated the 12th May 1920, from the Inspector-General of Education in Mysore, submitting for sanction a modified time-table showing the dates fixed for the commencement of the class and public examinations in all classes of schools, Anglo-Vernacular Schools, High Schools, Commercial Schools, and Training Institutions and fixing the period of vacation in the case of these schools.

Copy of letter No. A. C. 1862 of 1918-19, dated 12th May 1920, from the Inspector-General of Education, to the Secretary to Government, Departments of Education and Agriculture.

I have the honor to state that at present, the dates on which the 2nd term should close to the different classes of High and Anglo-Vernacular Schools and some special schools are not fixed, nor is there any mention in the existing rules, of the precise dates on which the 2nd term examination should close and vacations should commence.

Owing to this defect, there has been no uniformity in the practice obtaining in different High Schools, in regard to the holding of class examinations. The irregularity is further increased by the fact that among High Schools there are three classifications so far as the conduct of Public Examinations go—some having to arrange only for the Local Examinations, some for both the Local Examinations and S. S. L. C. Examination and a few for both these and the University Entrance and Commercial Examinations in addition.

Besides, the existing Government Notifications, only fix the days on which the class examinations should commence and it has been found that as a result, the class examinations and the Public Examinations sometimes clash—a situation to avoid which the schools concerned have been obliged to follow their own programme of class examinations.

Further, according to the existing orders of Government the vacations in the High Schools commence right after the *close of the class examinations*, about the end of March or beginning of April, and as the Local Examinations commence after the class examinations, teachers on the staff of High Schools deputed to the work of superintendence have come to look upon such work as interruption to vacation and consequently year after year, numbers of applications have been received from several of them for privilege leave on full pay in consideration of official work during vacation. In this connection, I beg to invite attention to my letter No. A. C. 1862 wherein I proposed that, as a means of overcoming this difficulty, vacation in High Schools might be taken to commence after the close of the Local Examinations.

This question has since been considered by me in all aspects. With a view to avoiding (i) the overlapping of examinations, (ii) the irregularities consequent upon want of precise definition of examination dates and (iii) the inconvenient interpretation about interruption to vacation, I have prepared the enclosed chart of Public Examinations, in which the period of vacation has been provided after the close of the Public Examinations and dates fixed for the commencement of the class and Public Examinations in all classes of schools—Anglo-Vernacular Schools, High Schools, Commercial Schools and the Training College.

I request that Government may be pleased to accord sanction to the modified time-table so that it may be applied to the examinations of 1921. Under this time-table there cannot be any infringement of vacation from 1921, but the existing concession of privilege leave on full pay may be shown to those who have had to work during vacations up to now, each case being dealt with individually as occasion may arise.

2. The Inspector-General of Education proposes that in supersession of all the previous orders on the subject revised rules may be issued, the main features of which are,

(1) the institution of a fixed number of scholarships in each grade of the same value as backward classes scholarships.

(2) the rates being increased by 50 per cent in the case of children of persons who have died or have been incapacitated during the war.

(2) grant of an addition to the scholarship amount by 33⅓ per cent in the case of students residing in hostels.

3. The Soldiers' Board who were consulted in the matter have recommended the grant of scholarships to each child of every person employed in the Mysore regiments and to children of persons who were on active service, the rates of scholarships varying according to the group to which the student belongs.

4. Government have carefully considered the proposals, and are not in favour of granting scholarships to every child of the military men of all the units as a matter of course. They however consider that three scholarships in each class up to and inclusive of the Middle school standard for each of the regiments may be instituted to be awarded to the poor and deserving students from the regiments. Ten scholarships will be awarded in each of the High school classes and five in the entrance class to deserving students from all the regiments. Ten scholarship will also be made available for students studying in the University classes. All the above scholarships will be of the same value as the backward classes scholarships of the corresponding grades

5. Government also consider that in deserving cases where pupils are too poor to purchase books and may consequently be compelled to discontinue their studies books may be supplied free of cost and accordingly direct that a lumpsum provision of Rs. 150 be made every year for the purpose. Government do not consider that any alteration is necessary in so far as facilities for the education of children of persons incapacitated, etc., during the late war sanctioned in the Government Order, dated November 1918, are concerned. Government are also pleased to approve of the recommendation of the Soldier's Board regarding the extension of the privileges to children of retired soldiers also.

6. Subject to the above modifications, the concessions already sanctioned in the orders read in the preamble will continue and are detailed in the rules appended to the order.

7. The additional facilities herein sanctioned involve an extra expenditure of Rs. 7,576 which will be met from the Education Budget. The extra cost during the current year being met from savings under '26 Education, 4 Secondary Education Scholarships.

Paragraph 2 of Government Order No. 6533-8—Edn. 179-19-4, dated the 21st January 1920, appointing a Committee to examine the conditions of award, etc., of Professional Scholarships and to submit suitable proposals for revising the same.

2. Letter No. C. 11818, dated the 9th March 1920, from the Inspector-General of Education, submitting the * Proceedings of the Committee (appointed in the Government Order read above) passed at a meeting held on 1st March 1920.

(*Printed as an accompaniment.)

Order No. 1090-4—Edn. 179-19-13, dated 28th July 1920.

Government are pleased to approve of the proposals of the Special Committee regarding the revision of scholarships subject to the following modifications:—

(i) The portion in Resolution 4 (scholarships for women) relating to a guarantee of appointment is unnecessary and the words "with a guarantee of an appointment ..... analogous qualifications" may therefore be omitted.

(ii) There is no necessity to reserve two scholarships separately specially for study in the Lady Hardinge Medical College and Resolution 6 is not therefore approved.

(iii) The scholarships of Rs. 75 awarded to persons with Western medical qualifications for undertaking Research Work in the Oriental Medicine may continue as at present.

(iv) The value of the scholarships granted to Ayurvedic Vidvans and Unani Hakims for studying Western Medicine may be reduced from Rs. 50 to Rs. 40.

(v) Resolutions 12 and 14 and the modifications proposed in Rule 17 regarding conditions as to service, etc., are not approved.

(vi) Government do not see any necessity for the distinction proposed for the forfeiture of scholarships in Resolution 20. The existing practice may therefore continue.

(vii) As regards Resolution 22, Government consider that while scholarships should be given by selection on the ground of fitness for a particular Department of Government service, care should, however, be taken that the scholarships are not awarded exclusively to members of any particular class and they therefore direct that in awarding scholarships preference should be given to members from backward classes up to a minimum of one-third of the number and if qualified applicants are available not less than one-third of the total number of scholarships of each grade should be awarded to them.

2. The rules relating to the several scholarships may be revised on the foregoing lines and submitted for approval of Government with information as to the extra cost involved so that the scheme may be brought into operation with effect from next year.

That excepting in the case of ladies and depressed classes, failure to secure a pass should entail the forfeiture of scholarships unless it be due to illness for which proper medical certificates shall be produced and that in the case of the two categories mentioned above the first failure to entail forfeiture of half and a second the full scholarship.

21. Since it is impracticable to recover the sums already paid to students who fail or do not prosecute their studies with all due diligence this condition be deleted and the form of contract be suitably modified.

22. That half the number of the scholarships of each variety be made available in the first instance to members of the backward and depressed classes, while the other half be open to all communities.

Establishments of the several Boards of the Economic Conference.

No. 120-83—E. C. 15-19-95, DATED 6TH JULY 1920.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS

READ—

Paragraph 11 of Government Order No. 514-66—E. C. 15-19-1, dated the 12th July 1919, directing among other things that separate orders will issue regarding the establishments to be attached to the various sections of the Conference organisation.

2. Government Order No. 9974-88—E. C. 15-19-84, dated the 19th April 1920, directing the continuance of the existing establishment of the several offices of the Conference till the end of June 1920.

Order No. 120-83—E. C. 15-19-95, dated 6th July 1920.

From a careful examination of the working of the various agencies of the Economic Conference as reorganised, Government are pleased to order the revision of the establishment of the several Boards as hereunder which will come into effect from 1st July 1920.

2. *Gazetted Staff.*—At present the Secretary to Government, Departments of Education and Agriculture is *ex-officio* Secretary to the Economic Development Board. The three Central Boards have separate full-time Secretaries. Government consider that it would facilitate work, reduce routine correspondence and economise expenditure if instead of having separate Secretaries to the Boards, the Assistant Secretaries to Government in the Education Secretariat are also made *ex-officio* Secretaries to the Central Boards of Education, Agriculture and Industries and Commerce with an additional duty allowance for Conference work. Government are accordingly pleased to direct that the cadre of Assistant Secretaries in the General and Revenue Secretariat be increased by the addition of two more Assistant Secretaries and the present Secretary to the Board of Agriculture and the Assistant Secretary to the Economic Development Board be absorbed in the said appointments, the work in the Education Secretariat and the work of the Boards being apportioned as follows:—

i. Mr. T. G. Rama Iyer, Assistant Secretary to Government, Department of Education to be *ex-officio* Secretary to the Board of Education also, with an additional duty allowance of Rs. 50 per mensem.

ii. Mr. S. N. Appanna Iyengar to be Assistant Secretary to Government, Departments of Agriculture, Co-operation and Meteorology and *ex-officio* Secretary to the Board of Agriculture with a duty allowance of Rs. 50 per mensem for Secretariat work and an additional duty allowance of Rs. 50 for the Agricultural Board work.

iii. Mr. M. S. Ramachandra Rao to be Assistant Secretary to Government, Industries and Commerce Department and *ex-officio* Secretary to the Board of Industries and Commerce and *ex-officio* Assistant Secretary, Economic Development Board with a combined duty allowance of Rs. 100 for Secretariat and Industries and Commerce Board work and an additional duty allowance of Rs. 50 as Assistant Secretary, Economic Development Board.

3. Half of the pay and allowances of the Secretary to Government, Departments of Education and Agriculture, half of the pay of the other Secretariat Officers connected with the several Boards, and the full duty allowances granted for work connected with the Economic Conference will be debited to the Conference Budget, the rest being charged to general administration.

4. As regards the Board of Research and Scientific Advice, the existing arrangement of debiting the cost of establishment of the Board to the Industrial Development Fund will be continued. The Secretary to the Board will be given a duty allowance of Rs. 50 per mensem which will be charged to the Conference Budget.

5. *Office Establishment.*—As regards the establishments of the Economic Development Board and the other three Central Boards, Government are of opinion that it is necessary that each Board should have a separate office as it will be expected to

do a certain amount of independent work, such as the collection of information and statistics, initiation of new schemes and working them in their earlier experimental stages. The present establishment of these Boards, however, admits of reduction. The permanent establishment in the case of each Board will therefore be fixed according to the following scale:—

(i) *For the Economic Development Board.*

	Rs.
1 Head Clerk on	80
1 Clerk on	50
1 Typist on	35
1 Attender on	15
6 Peons 1 on	10
2 on	9 each
3 on	8 each

(ii) *For each of the three Central Boards.*

	Rs.
1 Head Clerk on	80
1 Clerk on	50
1 Typist on	35
1 Attender on	15
5 Peons 1 on	10
2 on	9 each
2 on	8 each

6. All officials now working in these offices who may be in receipt of a higher rate of pay will be allowed to draw the same rate and bear their present designations till they are absorbed elsewhere. The pay of the Head Clerks of the offices of the Boards of Agriculture and Industries and Commerce will however continue to be fixed at Rs. 70 for the present.

7. Any extra establishment that may be required from time to time for any specific work will be entertained on a purely temporary basis as indicated in the final portion of para 7 of the order of 12th July 1919.

8. *District Staff.*—With regard to work in the Districts, Government agree with the Deputy Commissioners who were consulted in the matter that it is very necessary that there should be some responsible officer to co-ordinate the work of the several agencies, bringing the local people into touch with the Central Agencies of the Conference and the Departments allied to it. The posts of the present District Economic Superintendents will accordingly be continued but they will in future be designated Secretaries to the District Boards for development work. These officers will work under the Deputy Commissioners subject to the general control of the District Boards. The Deputy Commissioners are requested to define the relationship of these officers with the Vice Presidents of the District Boards so that adequate and continuous attention may be devoted to the work of economic development in the districts by these officers.

9. The scale of permanent establishment for the District Boards will be fixed as follows:—

				Rs.	
1 Clerk on	..	..	...	35	
1 Clerk on	..	...	...	25	
3 Peons on	...	..	...	8 each,	one for the office and two for the Secretary to the District Board.

The Taluk Offices will be provided with a clerk on Rs. 15 each per mensem for economic development work.

10. The net financial effect of the revision of the Gazetted and other establishment of the Conference as a whole will thus be Rs. 70,752 as against Rs. 91,044 at present as shewn in the accompanying statement.

11. In settling the permanent establishments of the various offices as outlined above, Government desire that such of the officials as have been long connected with the Conference and cannot be provided for in the reorganisation be kept on a temporary basis for three months, within which time they may be asked to obtain employment elsewhere. The Heads of other Departments of Government are requested to

No. 120-88—E. C. 15-19-95, dated 6th July 1920.

give these men a preference in filling up vacancies that may exist or may arise in their offices.

MEMORANDUM.

The important features of the estimates are explained in this memorandum.

Revised Estimate for 1919-20.

2. The total revenue shows an improvement over the Budget of the year of Rs. 15,36,000 which is the net result of noticeable increases and decreases. The chief improvements appear under the Principal Heads of Revenue, Surplus Revenue of the Assigned Tract, Interest and Railways. There are decreases under the items of revenue, *viz.*, Mining Revenue, Krishnarajasagara Works, Electrical Works, and Sandal Oil Factories, mostly receivable in sterling.

Revenue.—The favourable agricultural conditions of the year have enabled the collection of arrears of Land Revenue to a larger extent than was anticipated in the Budget. The revenue from Forest is Rs. 4,45,000 more than the Budget, chiefly due to better bids for Tangadi leases. Increased litigation and extension of industrial and commercial activities explain the excess of 2 lakhs under Stamps. The Surplus Revenue of the Assigned Tract has been taken at Rs. 9,83,000 against 2 lakhs assumed in the Budget. Much of the improvement under Interest represents the arrears of interest payable on working advances made to the Sandal Oil Factories. The increase under Railways is attributable to the large influx of people to the Mysore City on the occasions of the last Dasara and the Viceregal visit and also to the gain on exchange in connection with the payment of interest on the Sterling Railway Debt. Part of the decrease under Sandal Oil Factories is due to the payment of arrear interest on working advances as stated above. The balance of reduction of revenue under these factories and the decreases under Mining Revenue, Krishnarajasagara Works and Electrical Works are entirely attributable to the high rate of exchange.

Expenditure.—The total expenditure exceeds the Budget forecast by Rs. 19,43,000. The cost of grain and war allowances was proposed in the Budget to be met from the Famine Insurance Reserve. It was considered inadvisable to draw upon the reserve for this purpose and the entire charge amounting to Rs. 14,80,000 shown under 17. Miscellaneous has accordingly been proposed to be met from the current revenues. The grant included in the Budget for the Viceregal visit was only one lakh, while the actual expenditure on this account is expected to be 5 lakhs. These two items chiefly account for the increase under expenditure.

Capital outlay.—The Capital Works programme provided for in the Budget was for Rs. 90 lakhs. It is anticipated that the actual expenditure will be about Rs. 116 lakhs, the increase being mainly due to the probability of a larger amount than had been provided for in the Budget for Iron Works being spent in the current year.

Budget Estimates for 1920-21.

3. The Budget for 1920-21 counts upon a total revenue of Rs. 3,15,15,000 and provides for a total expenditure of Rs. 3,24,66,000, resulting in a deficit of Rs. 9,51,000. The yield from the Income tax introduced with effect from this year is estimated at 6 lakhs and credit has been taken for it in the Budget. The high rate of exchange and the necessity to provide for expenditure on the grant of allowances to subordinate staffs for high cost of living make the position in the Budget one of deficit.

The high level of prices with the consequent larger expenditure on articles of different kinds which Government have to purchase is another factor contributing to the deficit. It has not been found possible to provide in the next year for the assignment of Rs. 10¼ lakhs for the group, Local Self-Government, and for the contribution of Rs. 5 lakhs for Irrigation Capital Reserve required to be made under the Financial Settlement.

4. *Revenue.*—Compared with the Revised for past year, the estimate of revenue in the Budget shows a reduction of Rs. 13,87,000. The noticeable variations are the following:—

Land Revenue includes in the Revised the collections of large arrears and the absence of such arrears chiefly explains the reduction of one lakh under this head in the Budget. The large decrease of Rs. 11,84,000 under Forest is mainly attributable to absence of exceptional revenue from Tangadi leases. The increase of 2 lakhs under Excise is the normal annual growth. The excess under IV Income and Miscellaneous Taxes is due to the levy of the Income tax from 1st July 1920 as already stated. The price in rupees at which part of the production of the gold mines was being sold to the Government of India in the past year is not expected to be realised in the current year and this mainly accounts for the decrease under Mining Revenue. The revenue from Interest in the Revised is abnormal, while the estimate in the Budget counts on only the normal receipts. The decrease of Rs. 1,20,000 under Education is chiefly due to the abolition of school fees up to the Middle School standard. In the case of Railways the absence of special receipts as in 1919-20 explains the reduction of Rs. 1,49,000 in the estimates for current year. The revenue from Sandal Oil Factories is low in the Revised owing to adjustment of arrear interest on working advances due by the factories.

5. *Expenditure.*—The estimated expenditure is Rs. 9,07,000 less than the Revised estimate. The important variations are the following:—

The increase of Rs. 1,11,000 under Land Revenue is mainly due to the provision made for expediting resurvey operations and for phod work. The excess of Rs. 2,39,000 under Forest represents the charges for supplying fuel for Iron works, the corresponding revenue to the Department being taken on the revenue side. The excess under Stationery and Printing is accounted for by the high prices of printing paper and stationery and by the provision made for Census work. The large increase under Miscellaneous is mainly due to the additional provision made for high prices allowances. The increase under Medical is due to larger expenditure on diet and hospital necessaries. The reduction under Irrigation Works charged to Revenue is due to the suspension of the contribution of Rs. 5 lakhs to the Irrigation Capital Reserve. The excess of Rs. 4,26,000 under Education is for measures of reform contemplated in the Educational Memorandum and for normal development. The increase of Rs. 1,58,000 under Agriculture is due to provision made for improvement of sericulture, for development work entrusted to the animal husbandry expert and for other measures of experiments and demonstrations in the Agricultural Department. The increase of Rs. 1,91,000 under Army is chiefly explained by the provision made for measures of demobilization and for increased expenditure on feed and keep of ponies and bullocks.

6. *Capital outlay.*—The programme of Capital Works provides for about the normal outlay of 96½ lakhs, almost the whole of which is for works in progress. The amount required for financing this programme has to be found by amounts raised by public loan.

7. A statement showing the financial results of productive capital works is appended as usual.

(In Extenso as annexures A, B, C, D, E, F, G and H.)

2. Letter No. 3672—Loans, dated 21st June 1920, forwarding revised annual statements for (1), (2) and (3).

Order No. Fl. 96-145—G. F. 176-19-15, dated 5th July 1920.

Recorded.

2. *Land improvement loans (Old Rules).*—Out of the balances outstanding under this head aggregating Rs. 1,40,091 on 1st July 1918, only a total sum of Rs. 22,866 is reported to have been adjusted during the year under report. As regards the amounts still remaining to be recovered in the several districts, Government observe that the Comptroller's book figures have not been reconciled with those maintained in the districts owing to non-receipt of plus and minus memos from some of the districts. The further report promised by the Comptroller in the matter of reconciliation of the two sets of figures is awaited.

3. *Land improvement and takavi loans (New Rules).*—Government regret to note that the detailed statements of balances of loans outstanding at the end of 1916-17 sent by the Comptroller to the Deputy Commissioners of Bangalore, Hassan, and Mysore, for verification have not yet been returned to him verified in spite of several reminders. The attention of these officers is invited to the Standing Orders contained in para 231 of the Mysore Account Code, and the Revenue Commissioner is requested to issue strict instructions for the enforcement of the responsibility of the departmental officers in the matter of prompt recovery of the dues and the verification of the accounts maintained by them with those in the Audit Office.

4. *Loans for purchase of machinery.*—The Director of Industries and Commerce is requested to report what special action has been taken by him in the matter of the recovery of the amounts due in the marginally noted cases in which the principal sums are overdue.

Capital and Revenue Accounts of the Krishnarajasagara Works for 1918-19, received with the Comptroller's No. 1803—W, A. D. I., dated 2nd June 1920.

Order No. 499-504—P. W. 2831-36, dated 7th July 1920.

The capital outlay on the project up to the end of the year under report was Rs. 1,35,50,148 and the indirect charges amounted to Rs. 12,05,927 against Rs. 1,20,97,896 and Rs. 11,07,805, respectively, at the end of the previous year.

2. The gross revenue for the same period was Rs. 15,07,511, while the working charges including the indirect charges amounted to Rs. 86,953. There was thus a net revenue of Rs. 14,20,558. If charges on account of simple interest at 4 per cent on direct capital outlay which aggregates Rs. 21,46,808 be however taken into account, there will be a deficit of Rs. 7,26,250.

3. Of the amount of revenue Rs. 3,76,034 realised during the year, Rs. 3,49,030 was electrical and the balance of Rs. 27,004 was the revenue collected under the two low-level channels and revenue from irrigation extensions above the Reservoir due to increased supply of water to the Hemagiri, Mandagere and Chamaraja Right Bank Channels. The exact basis on which these have been calculated may be explained in future returns

READ THE FOLLOWING PAPERS—

1. G. O. No. R. S. 910-15—Ry. F. 216-G-17-18, dated the 18th September 1917, according administrative sanction to the abstract estimate amounting to Rs. 18,22,410 for the construction of a Metre-Gauge Railway from Shimoga to Arasalu.

2. G. O. No. R. S. 544-48—Ry. F. 216-G.-19-20, dated the 16th September 1919, sanctioning the detailed estimates for the Railway working up to the same amount.

3. Correspondence ending with the Railway Secretary's note No. 867, dated the 3rd April 1920, submitting for sanction, the detailed estimate amounting to Rs. 2,72,166 for the construction of a 14-60 feet girder bridge across the Tunga at Shimoga in the projected Shimoga-Arasalu Railway.

Order No. R. S. 22-26—Ry. F. 216-G-20-21, dated 6th July 1920.

The Secretary for Railways in his note dated the 31st October 1918, brought to the notice of Government in para 18 of the Report and project estimate submitted in this connection that a lumpsum provision of one lakh was made with a view to use the present road bridge the strength of whose arches was then under investigation.

As these arches have been proved to be weak for the Railways, a new girder bridge was considered essential. He has also pointed out that a new bridge would entail an additional expenditure of about two lakhs. Thereupon, it was ordered that a revised estimate may be submitted by the 30th June 1919.

Accordingly, the accompanying detailed estimate amounting to Rs. 2,72,166 for the construction of the bridge is submitted for sanction. The work however was started before the estimate was submitted and in fact before the detailed estimates for the whole project were ready. Administrative sanction was given only for the abstract estimates in 1917, but construction was ordered to be commenced in February 1919. Detailed estimates were submitted later. Even in these estimates the excess due to the new bridge was not included although at the time the Railway Department knew the excess of two lakhs was bound to occur if a new bridge has to be constructed. The Financial Secretary observes that as the project estimates will generally be under-estimated, the practice of commencing construction works before detailed estimates are sanctioned may be discontinued.

With the foregoing observations, the detailed estimate amounting to Rs. 2,72,166 for the construction of the Tunga bridge is sanctioned. This amount may be included in the revised detailed estimate of the Railway including all excesses which should be prepared early and submitted for sanction. It was irregular to have submitted the detailed estimate in the first instance without providing for all necessary expenditure. The practice of commencing construction works before the detailed estimates are sanctioned should be discontinued.
